BARBARA CUBIN
FOR ALL WYOMING

October 25, 2006

Amy David
17 Front Street
Boulder, WY 82923

Dear Amy:

Congratulations on winning third-place in the 8th Annual Discovery Channel Young Scientist Challenge! I was delighted to hear your science project, "When the Dust Settles, Year 2: A Multivariate Study of the Patterns of Near and Far Dispersal of Windblown Particulate Matter" was selected as one of the top projects in the nation. You represent the fine students of Wyoming well!

Sincerely,

A handwritten signature in cursive script that reads "Barbara".
